Nature Of Opinion:

Docket Number: W-03443A-15-0271

Docket Position: Against

I am totally against any rate hike for our water. I was in business for 37 years and was never guaranteed a profit. When Mr Cordovona bought the Appaloosa Water Co, he knew there were arsenic problems, now he wants the customers to bail him out as he has in the past. I am still against the fact that the water Co charges different rates for the size of the meter, A thousnad gallons is a thousand gallons no matter if it goes through a straw or a fire hose. I think the charge for the meter should have been a one time charge instead of our part of the development paying double what the first phase pays. Just to be clear I am opposed to any rate hikes, I think the water bills are too high as they stand. I am on a fixed income with my Social Security and have planned for my retirement based on my income, any further rate hikes will put a burden on my financial situation. Thank You Concerned Consumer William P. Turner III
